

# Machine Deep Cleaning

**BEFORE**

**AFTER**

# Objective

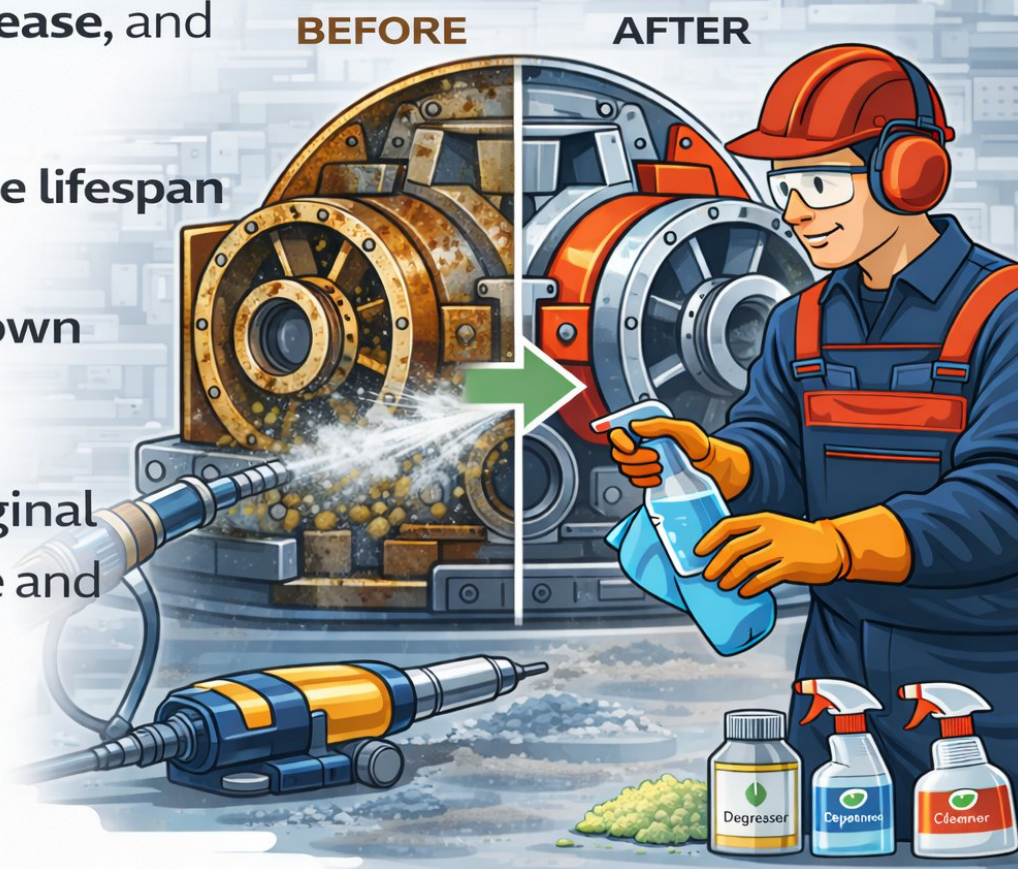

✓ Ensure **optimal** machine **performance**

Remove **dirt, grease, and contaminants**

💧 Increase **machine lifespan**

⚙️ Reduce **breakdown cost**

🔧 Restores the **original machine surface and color**

**BEFORE**

**AFTER**

# Required Tools & Materials

**Machines using Specialized Brushes**

**Lint-Free Cleaning Cloths**

**Approved Cleaning Chemicals**

**Innovative Blasting Technology**

**BEFORE**

**AFTER**

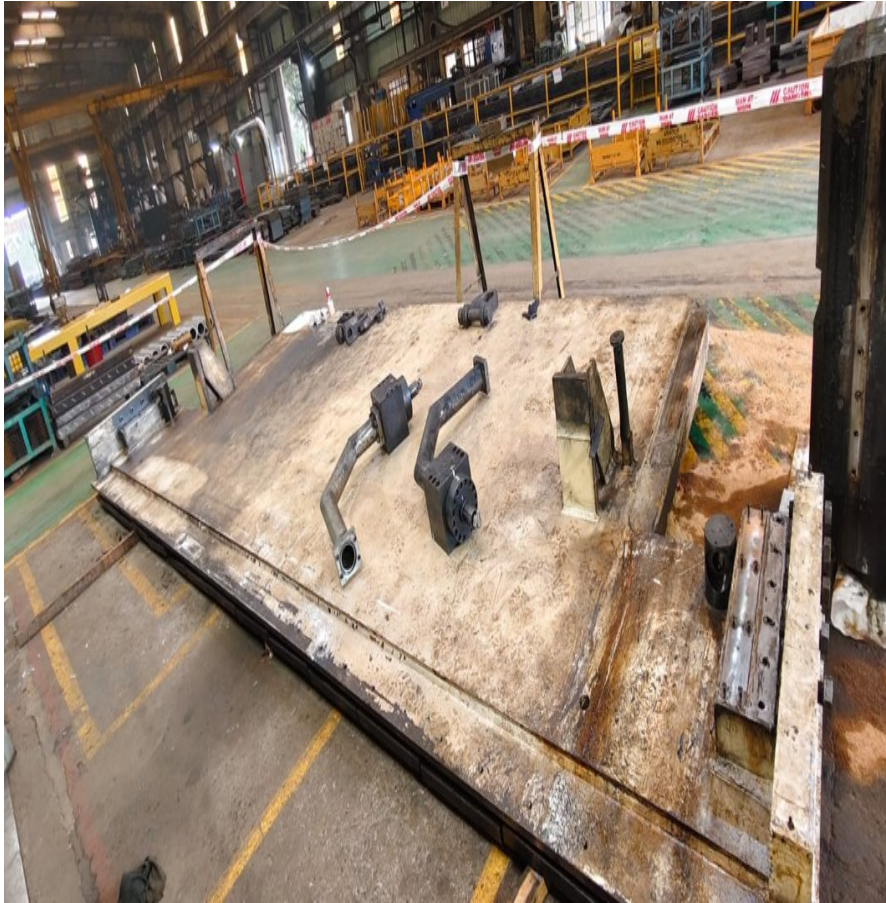

## Foedust Workings

- **Rust, stain, oil and grease deposits on the machines are cleaned effectively and the original base colors of the machines are retained.**
- **Our cleaning process is tailored to the specific condition and material of each machine. We use a combination of customized biodegradable chemicals, along with advanced tools and techniques such as powered brushes, steam cleaning, and controlled blasting technologies to achieve optimal results without causing damage.**
- **This service not only restores the visual appeal of your machines but also enhances their operational efficiency and extends their service life.**

## Key Benefits

- ✓ Effective removal of **rust, oil, grease**, and stains
- ✓ Restores the **original** machine surface and color
- ✓ Increases **machine** lifespan
- ✓ Improves **working condition** and operational safety
- ✓ Uses **eco-friendly** and non-damaging cleaning solutions
- ✓ Custom approach based on **machine type** and condition
